SUBJECT: THRIFT SAVINGS PLAN ACCOUNT NUMBER

Be on the lookout this fall, you will be receiving a new Thrift Savings Plan (TSP) account number in the mail that will replace your Social Security number as your primary ID for your TSP account. This number will be required when completing TSP forms; it will be used in combination with your TSP password when entering the Account Access section of the TSP Web site; and with your TSP Personal Identification Number (PIN) to gain access to your account through the ThriftLine. If you send TSP loan payments from your own funds, you will need to include your new account number on the loan coupon that accompanies your check or provide it to your on-line bill-paying service if you have one.

Substituting this randomly selected account number for your Social Security number will make your TSP transactions more secure. You should protect your TSP account number just as you would any other financial account number. Questions regarding the TSP should be referred to Cathy Clifton at (865) 576-0680.
